Women’s History Month

Women’s History Month first came to be as a national celebration in 1982 though the first celebration was Women’s History Week. A few years later, it expanded into a full month of honoring women’s roles in society, thanks to a petition from the National Women’s History Project, which led to President Carter proclaiming March of each year Women’s History Month.

Women’s History Month is a month-long celebration of women’s accomplishments and contributions. We celebrate Women’s History Month to remind ourselves of the accomplishments of women throughout the years to our culture and society. From science to politics, it’s a chance to reflect on the trailblazing women who lead the way for change. The College of Engineering will be honoring this month with various events, hoping you can attend!

Undergraduate Scholarship Opportunity

2023 Fall and Spring SASE SCHOLARSHIPS- $165,000 available

The purpose of the SASE Scholarship Program is to recognize and reward deserving SASE Collegiate and Professional members who have demonstrated exceptional academic achievements and leadership credentials through activities and impacts they make on campus and local communities.

Call for Applicants: Student Experience of the UGA Engineering High Demand Process

Carlie Cooper, a doctoral student under the supervision of Dr. Amy Stich in the Louis McBee Institute of Higher Education at the University of Georgia invites you to take part in a research study.

This project seeks to understand how students from underrepresented backgrounds experience a major admissions process in an undergraduate engineering program in a large, public institution.

1. **Have completed the College of Engineering high demand application process at the University of Georgia, whether they were accepted or denied**

2. **OR students that changed their major before completing the application process.**

Access the survey here by clicking on the link.

MARCH 2023

8 Holi: Known as the “Festival of Colors,” this Hindu holiday celebrates the winter harvest and the onset of spring.

14 Equal Pay Day: Equal Pay Day marks the point when the average woman’s current earnings, combined with what she earned in the previous year, equals what the average man was paid last year.

17 St. Patrick’s Day: St. Patrick’s Day started in Ireland to recognize St. Patrick, the patron saint of Ireland who brought Christianity to the country in the early days of the faith.

20-21: Nowruz/Norooz - Persian New Year: Is celebrated by peoples of many different religions and cultures across this vast region. Some of the festival’s earliest origins lie in Zoroastrianism, marking one of the holiest days in the ancient Zoroastrian calendar.

22-26 National Society of Black Engineers Conference

22 Ramadan Begins: Ramadan — an annual observance for Muslims worldwide — falls in the ninth month of the Islamic calendar. During this time, Muslims abstain from eating or drinking from dawn until dusk.

31 Transgender Day of Visibility: Bring awareness to transgender people and their identities as well as recognize those who helped fight for the rights of transgender people.
